

MBP Series oil holding filter bag

Features, Advantages and Benefits:

The Microteck MBF Series filter bag features a multi-layered polyolefin construction that provide clean, uniform, efficient filtration at high flow rates in both low and high viscosity liquids. The large amount of surface area provided by the layers of polyolefin media result in high oil holding capacities

Applications:

Grade of oil holding capacities	100	200	300	400	500
Bag Size 1 (Dia. 7" * Length 17")	600 grams	850 grams	1100 grams	1350 grams	1600 grams
Bag Size 2 (Dia. 7" * Length 32")	1200 grams	1700 grams	2200 grams	2700 grams	3200 grams

Applications:

- Acids and Bases
- Wastewater
- Laundry water
- Plating solutions
- Amines
- DI resins
- Machine coolants
- Beer and Wine
- Carbon beds
- Glycol
- Photo chemicals
