

Dust Collector Bag

Introduction

The features of Dust Collector Bag with high temperature resistant, high acid and bases resistant are made into needle punch cloth by imported materials, which are specially made for the collection of dusts and powders and other unwanted particles in liquids.

We also have a processing department to manufacture the industrial related products for multiple purposes, such as recycled dust collector, it can collect dust to improve the environment and visibility.

Procedures

Choose of Material

Material	Temperature Tolerance	Chemical Resistance
Polyester(PET)	150°C	Low
Nomex(Arimd)	210°C	Low
Ryton(PPS)	190°C	Medium
PTFE	260°C	High
PTFE(Membrane)	260°C	High
Glass Fiber	260°C	Low
P84	260°C	Medium

Applications

Incinerator	Flour Mill	Power Plant	Foundry
Steel Plant	Chemical Plant	Smelter	Leather Factory
Cement Plant	Building Material Factory	Non Ferrous Foundry	
Asphalt Plant	Textile Dyeing	Carbon Plant
