

CO2 Absorbers

Purpose

To Prevent Carbon Dioxide from entering into process water storage tanks such as Demi. Water storage tanks and Condensate Storage tanks.

Applications

Wherever CO2 must be removed from the air

- ◇ Demineralized water storage tanks
- ◇ Condensate storage tanks
- ◇ Other Storage tanks

Customized Solutions

MICROTECK KOREA CO.,LTD has the proven technology for CO2 absorbers. And we can provide individually customized solutions to satisfy your requirements.

Design

- ◇ Basically, CO2 absorbers are the customized equipment reflecting customer requirements.
- ◇ Housing : Stainless Steel Grade
- ◇ Absorbent or Cartridge with absorbent : Absorbent shall be replaced when the color change from white to violet. This means it is saturated and the capacity is exhausted.
- ◇ Minimized resistance to gas flow
- ◇ Installation : In enclosed and outside positions.
- ◇ Top mounting / Ground mounting
